

Buggy Building

Location

This activity takes place within the area around the Toilet Block.

Equipment

Wooden poles, small lengths of rope, Buggy Wheels, Helmets, Radio, Items to collect.

Health & Hygiene

The buggies can be very strenuous particularly if being pulled. Clothing suitable for the weather conditions and the activity should be worn, footwear that is firmly on the foot is essential, trainers that are laced up are ideal but flip flops are not suitable.

Maintaining Social Distancing	<ul style="list-style-type: none"> Instructor will space out participants around the area.
Use of equipment – potential to pass on Coronavirus	<ul style="list-style-type: none"> Users are to use hand gel at the start of the session and are encouraged to do throughout.
Equipment cleaning – reducing the potential to pass on Coronavirus	<ul style="list-style-type: none"> All Equipment will be wiped down using soap and water and/or antiviral spray post session. If possible equipment will be quarantined for 72 hours post the session prior to being used again.

Hazard	Hazard Effect	Risk Control Measures
Trips / Falls.	Head injury, sprains, and other injuries.	Instructors to ensure no one runs, no running rule to be passed on during safety brief. Lead Instructor to ensure that group is under supervision at all times during the session.
Broken equipment.	Slight to severe injury. (Bleeds, breaks, bruising).	Instructors to check equipment before the participants are allowed to use it
Impact with Buggy, run over.	Impact injury, minor to severe.	Group leaders and instructors to ensure that group step back when buggies are moving. Transition of drivers only to be done when buggy is stationary. Drivers to be careful. Active and firm group control.
Poor instruction & leadership.	Dangerous or irresponsible activity that could result in injury from impact with or by Buggy.	Active and responsible group control. Centre staff undertakes site specific training. Responsible adult group/youth leaders may run the activity after equipment hand over by centre staff. Continuous observations by Centre management and feedback from user groups.
Body parts getting caught in buggy wheels.	Constriction of hands and feet strain & sprains.	Full instruction should be given about keeping body parts within the confinements of the buggy.
